TUGAS

1. Studi Kasus: Portal Berita.

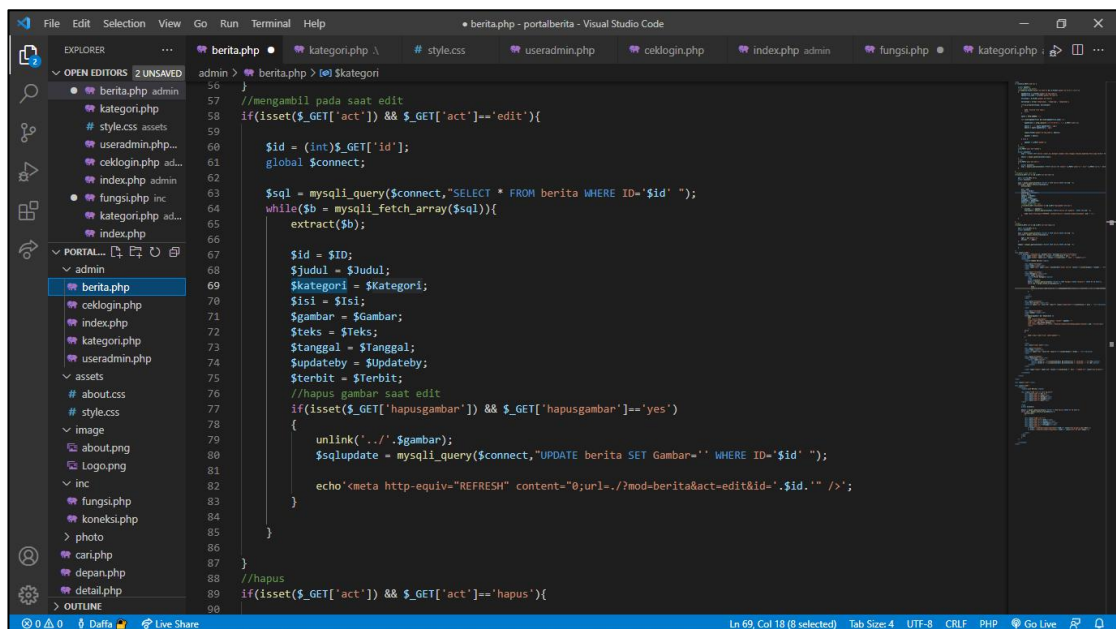

- Berita
- Administrator
- Kategori

2. Terapkan beberapa fungsi berikut:

Script:

- **Proses View**

Admin (menampilkan data pada saat mengedit berita dimana ID = id pada berita).

```
56 }
57 //mengambil pada saat edit
58 if(isset($_GET['act']) && $_GET['act']=='edit'){
59
60     $id = (int)$_GET['id'];
61     global $connect;
62
63     $sql = mysqli_query($connect,"SELECT * FROM berita WHERE ID='$id' ");
64     while($b = mysqli_fetch_array($sql)){
65         extract($b);
66
67         $id = $ID;
68         $judul = $Judul;
69         $kategori = $Kategori;
70         $isi = $Isi;
71         $gambar = $Gambar;
72         $teks = $Teks;
73         $tanggal = $Tanggal;
74         $updateby = $Updateby;
75         $terbit = $Terbit;
76         //hapus gambar saat edit
77         if(isset($_GET['hapusgambar']) && $_GET['hapusgambar']=='yes')
78         {
79             unlink('../'.$gambar);
80             $sqlupdate = mysqli_query($connect,"UPDATE berita SET Gambar='' WHERE ID='$id' ");
81             echo<meta http-equiv="REFRESH" content="0;url=../mod-berita&act=edit&id=".$id.'" />;
82         }
83     }
84     //hapus
85     if(isset($_GET['act']) && $_GET['act']=='hapus'){
86
87
88
89
90 }
```

Memilih kategori (menampilkan kategori berdasarkan order by ID Descending).

```

106 <div class="w100">
107     <form action="..?mod=berita" method="POST" enctype="multipart/form-data">
108         <input type="hidden" name="id" value="<?=(isset($id) ? $id : '')">">
109         <input type="hidden" name="aksi" value="<?=(isset($id) ? 'edit' : 'tambah')>">
110         <fieldset>
111             <legend>Tambah Berita</legend>
112
113             <div class="formnama">

            <div class="clear"></div>
        </div>
```

Proses Insert

Insert ke berita dengan variabel

Judul,Isi,Kategori,Gambar,Teks,Tanggal,Viewnum,Updateby,

Post_type, Terbit dimana valuenya adalah hasil dari inputan kita.

```

}
//tambah
if($_POST['aksi']=='tambah')
{
global $connect;
$sql = "INSERT INTO berita (Judul,Isi,Kategori,Gambar,Teks,Tanggal,Viewnum,Updateby,Post_type,Terbit)
VALUES ('".$_POST['judul']. "','".$_POST['isi']. "','".$_POST['kategori']. "','".$_POST['gambar']. "','".$_POST['teks']. "','".$_POST['date(
$hasil = mysqli_query($connect,$sql);
}

```

Insert ke kategori dengan variabel Kategori, alias, terbit dimana valuenya hasil dari inputan kita.

```
in > ❖ kategori.php > ...
<?php
//tambah kategori
if(isset($_POST['tambahkategori'])) {

    global $connect;

    $hasil = mysqli_query($connect,"INSERT INTO kategori (Kategori,alias,Terbit) VALUES ('".$_POST['kategori']."','".$_POST
}
//edit kategori
if(isset($_POST['editkategori'])) {

    global $connect;
```

Insert ke administrator dengan variabel nama, username, password, email dengan value hasil dari inputan kita.

```
echo "<script type='text/javascript'>alert('$error');</script>";  
}  
}else{  
  
$sql = mysqli_query($connect,"INSERT INTO administrator (Nama,username,password,email) VALUES ('".$_POST['nama']."'  
  
$error = "Berhasil menambahkan user admin baru";  
echo "<script type='text/javascript'>alert('$error');</script>";  
  
}  
  
}  
  
//edit user admin  
if (isset($_POST['edituser'])) {
```

- **Proses Update**

Update gambar berdasarkan id

```
//mengambil pada saat edit
if(isset($_GET['act']) && $_GET['act']=='edit'){

    $id = (int)$_GET['id'];
    global $connect;

    $sql = mysqli_query($connect,"SELECT * FROM berita WHERE ID='$id' ");
    while($b = mysqli_fetch_array($sql)){
        extract($b);

        $id = $ID;
        $judul = $Judul;
        $kategori = $Kategori;
        $isi = $Isi;
        $gambar = $Gambar;
        $teks = $Teks;
        $tanggal = $Tanggal;
        $updateby = $Updateby;
        $terbit = $Terbit;
        //hapus gambar saat edit
        if(isset($_GET['hapusgambar']) && $_GET['hapusgambar']=='yes')
        {
            unlink('../'.$gambar);
            $sqlupdate = mysqli_query($connect,"UPDATE berita SET Gambar='' WHERE ID='$id' ");

            echo '<meta http-equiv="REFRESH" content="0;url=./?mod=berita&act=edit&id='.$id.'" />';
        }
    }
}
```

Update kategori dengan menset kategori sesuai apa yang kita inputkan

```
//edit kategori
if(isset($_POST['editkategori'])) {

    global $connect;

    $hasil = mysqli_query($connect,"UPDATE kategori SET Kategori='".$_POST['kategori']."',alias='".$_POST['alias']."',Terbi
```

Update administrator dengan username nama email dan lainnya sesuai yang kita inputkan.

```
//edit user admin
if (isset($_POST['edituser'])) {

    $username = mysqli_real_escape_string($connect,$_POST['username']);

    $sql = mysqli_query($connect, "UPDATE administrator SET username='".$_username."', Nama='".$_POST['nama']."', email='".
```

Update berita dengan set viewnum bertambah satu berdasarkan ID.

```
$sql = mysqli_query($connect,"SELECT * FROM berita WHERE Terbit='1' AND ID = '".$id."' ");
while ($b = mysqli_fetch_array($sql)) {
    extract($b);

    $Updateviewnum = mysqli_query($connect,"UPDATE berita SET Viewnum=Viewnum+1 WHERE ID = '".$id."' ");

    echo'
<div class="detail">
    <h1>'.$Judul.'</h1>

    <div class="info">
```

- **ProsesDelete**

Delete berita berdasarkan id yang dipilih.

```
}
//hapus
if(isset($_GET['act']) && $_GET['act']=='hapus'){

    $id = (int)$_GET['id'];
    global $connect;

    $sql = mysqli_query($connect,"SELECT * FROM berita WHERE ID='$id' ");
    while($b = mysqli_fetch_array($sql)){

        $gbr = $b['Gambar'];
        unlink('../'.$gbr);
    }

    $hapus = mysqli_query($connect,"DELETE FROM berita WHERE ID='$id' ");

}

?>
```

Delete kategori berdasarkan ID yang dipilih.

```
}
//hapus kategori
if (isset($_GET['act']) && $_GET['act'] == 'hapus') {

    $id = (int)$_GET['id'];

    global $connect;

    $sql = mysqli_query($connect,"DELETE FROM kategori WHERE ID = '$id' ");

    header('Location:../?mod=kategori');

}

?>
```

Delete administrator berdasarkan ID yang dipilih.

```

}
//hapus admin
if ($_GET['act'] && $_GET['act']=='hapus') {

    $id = (int)$_GET['id'];

    $sql = mysqli_query($connect,"DELETE FROM administrator WHERE ID = '$id' ");

    $error = "Data user admin berhasil dihapus";
    echo "<script type='text/javascript'>alert('$error');</script>";
}
echo $error;
?>

```

● Proses Login

Proses login menset variabel username dan password pada saat kita memasukan.

Jika variabel username dan password sama dengan di database maka akan melakukan proses login.

```

ceklogin.php X index.php
admin > ceklogin.php > ...
1  <?php
2  include_once('../inc/fungsi.php');
3  session_start();
4  error_reporting(E_ALL & E_NOTICE & E_DEPRECATED);
5  //session destroy untuk keluar
6  if(isset($_GET["keluar"]) && $_GET["keluar"]=="yes"){
7      session_destroy();
8      header("Location:index.php");
9  }
10 }
11
12
13 include("../inc/koneksi.php");
14
15 //saat admin submit
16 if (isset($_POST["submit"]) ) {
17
18     global $connect;
19
20     $username = mysqli_real_escape_string($connect,$_POST['username']);
21     $password = mysqli_real_escape_string($connect,$_POST['password']);
22
23
24     $sql = "SELECT * FROM administrator WHERE username='".$username."' AND password='".$password."' ";
25
26     $result = mysqli_query($connect,$sql);
27     $numrow = mysqli_num_rows($result);
28
29     $r = mysqli_fetch_array($result);
30
31     if($numrow > 0)
32     {
33         $_SESSION["loginadmin"] = $r['username'];
34         $_SESSION["loginadminid"] = $r['ID'];
35         $_SESSION["loginadminemail"] = $r['email'];

```

Jika salah maka akan menampilkan User dan password tidak cocok

```
ceklogin.php X index.php
admin > ceklogin.php > ...
33     $_SESSION["loginadmin"] = $r['username'];
34     $_SESSION["loginadminid"] = $r['ID'];
35     $_SESSION["loginadminemail"] = $r['email'];
36     $_SESSION["loginadminnama"] = $r['Nama'];
37     $error = "Welcome ".$_SESSION['loginadminnama']." ";
38     echo "<script type='text/javascript'>alert('$error');</script>";
39
40 }else{
41
42     $error = "User dan Password tidak cocok";
43     echo "<script type='text/javascript'>alert('$error');</script>";
44     header('Location:index.php?error='.$error.'');
45     exit;
46 }
47
48 }
49
50 }
51 }
52
53 if(empty($_SESSION["loginadmin"]))
54 {
55 }
56
57 <!DOCTYPE html>
58 <html lang="en">
59 <head>
60     <title>Login Page</title>

Insert berita

The top screenshot shows the 'Tambah Berita' (Add News) admin interface. It includes a 'Judul' (Title) field with 'tambah berita', a 'Kategori' (Category) dropdown set to 'Kesehatan', a rich text editor with 'tambah', a 'Gambar' (Image) field with 'Choose File' and 'MU1.jpg', and a 'Teks' (Text) field with 'tambah'. The bottom screenshot shows the 'YB-Berita' website with the new news item 'tambah berita' displayed under the 'Kesehatan' category.

Insert Kategori

The top screenshot shows the 'Tambah Kategori' (Add Category) admin interface. It includes a 'Kategori' (Category) field with 'tambah kategori', an 'Alias' field with 'tambah', and a 'Tampilkan' (Display) dropdown set to 'Yes'. Below the form is a table listing existing categories:

ID	Kategori Name	Alias	Aksi
9	Kesehatan	kesehatan	Edit Delete
8	Olahraga	olahraga	Edit Delete
7	Ekonomi	ekonomi	Edit Delete
1	Nasional	nasional	Edit Delete

The bottom screenshot shows the 'YB-Berita' website with the new category 'tambah kategori' added to the navigation menu, highlighted by a red circle.

The screenshot shows the 'Administrator - Portal Berita' interface. At the top, there's a form for adding or editing news with fields for 'Gambar' (image), 'Teks' (text), and 'Terbitkan' (publish) with a dropdown set to 'Yes'. Below this is the 'LIST BERITA' table.

ID	Judul	Kategori	Tanggal	Aksi
10	Erick Thohir Bongkar Pasang Bos 7 BUMN Besar Jelang Tutup Tahun	ekonomi	2021-12-25 17:09:32	edit hapus
9	PDIP Pecat Kader Tersangka Penganlayaan Pelajar Medan	nasional	2021-12-25 17:07:44	edit hapus
8	Keributan dan 3 Kartu Merah Warnai Laga Indonesia vs Singapura	olahraga	2021-12-25 17:05:06	edit hapus
6	Jadwal Liga Inggris: Tak Hanya MU, Laga Lain Juga	olahraga	2021-12-18 20:55:47	edit hapus

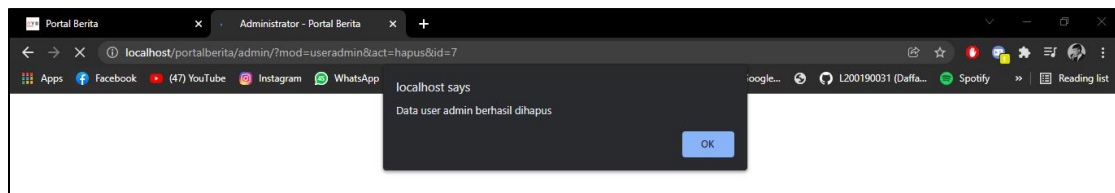

The 'hapus' button for the first row (ID 10) is circled in red.

The screenshot shows the 'Portal Berita' user interface. At the top, there's a navigation bar with links: Home, Nasional, Ekonomi, Olahraga, Kesehatan, and 'tambah kategori'. Below this is a search bar with the text 'Cari...'. The main content area displays a list of news items under the heading 'Berita Terbaru'.

- 2021-12-25**
Erick Thohir Bongkar Pasang Bos 7 BUMN Besar Jelang Tutup Tahun
